

OFFERS SELECTION REPORT

1. Subject of the order:

Industrial washing machine with automatic loading

2. Procedure: Request for Offer posted on the Nematik website from to

<https://www.nematik.com/suppliers/?sc=0#suppliersWelcome>

3. Brief description of the offers received from Bidders as a result of the Request for Offer:

* if such conditions were imposed

4. Offer no. has been selected.

Offer no.	Bidder's name	Date of submission of the offer	Information on the fulfillment of the conditions for participation in the proceedings by contractors *	TOTAL points	Declaration of no connections with the selected contractor or indication of the relationship between the selected contractor and Nematik Poland sp. z o. o.

The selected offer meets the criteria and conditions for participation in the request for offer and is the most advantageous one based on the offer evaluation criteria specified in the request for offer.

5. Justification for the selection of the offer

The offer with the highest number of points (TOTAL) will be selected according to the following rules:

Evaluation criteri*	Supplier 1			Supplier 2			Supplier 3		
	weight 1-5	assesment 0-4	points	weight	assesment	points	weight	assesment	points
Final price	5		0			0			0
Maintenance cost	1		0			0			0
Energy efficiency of the system	5		0			0			0
Proposed Solution Robustness	4		0			0			0
Flexibility of the system	3		0			0			0
Layout matching	4		0			0			0
Technical evaluation	5		0			0			0
Delivery terms (incoterms)	2		0			0			0
Delivery time	2		0			0			0
Payment terms	2		0			0			0
Expirirnce in similar projects	5		0			0			0
Financial stability	3		0			0			0
TOTAL :			0	0			0		

Evaluation criteria (element/no.of points):

		Waga
Final price	4 - lowest price	5
	3 - second lowest price	
	2 - third lowest price	
	0 - Estimated costs unacceptable	
Maintenance cost	4 - Lowest estimated cost	1
	3 - Second-lowest estimated cost	
	2 - Third-lowest estimated cost	
	0 - Estimated costs unacceptable	
Energy efficiency of the system	4 - Lowest energy consumption costs among technical solutions	5
	3 - Second-lowest energy consumption costs	
	2 - Third-lowest energy consumption costs	
	0 - Unacceptable energy consumption costs	
Proposed Solution Robustness	4 - Highest-rated solution reliability	4
	3 - Second-highest-rated solution reliability	
	2 - Third-highest-rated solution reliability	
	0 - Unacceptable solution reliability	
Flexibility of the system	4 - Highest-rated solution universality	3
	3 - Second-highest-rated solution universality	
	2 - Third-highest-rated solution universality	
	0 - Unacceptable solution universality	
Layout matching	4 - Device perfectly meets installation requirements	4
	3 - Device meets requirements with minor deviations	
	2 - Device meets requirements with major deviations	
	0 - Device does not meet requirements	
Technical evaluation	4 - the highest no. of point from TE	5
	3 - second highest no. of point from TE	
	2 - third highest no. of point from TE	
	0 - offer not technically not accepted	
Delivery terms (incoterms)	4 - DDP	2
	1 - EXW	
Delivery time	4 - delivery time xx weeks ellier then indicated in RFQ	2
	3 - delivery time acc. to required in RFQ	
	1 - acceptable delivet delay (Nemak acceptance required)	
	0 - not acceptable delivery delay	
Payment terms	4 - more than 60 days	3
	3 - 60 days	
	2 - 30 days	
	1 - installment payments	
Expirirnce in similar projects	4 - washing machine of components with similar size and more strict cleanliness requirement	5
	3 - washing machine of components with similar size and cleanliness requirement as stated in this RFQ	
	1 - washing machine of smaller components and cleanliness requirement as stated in this RFQ	
	0 - no experience in cleaning components acc. to cleanliness requirements stated in this RFQ	
Financial stability	4-	2
	3-	
	2-	
	1-	

* if any of evaluation criteria is 0 offer can't be considered

Number of points = weight x evaluation

Weight – defined individually for each investment

Evaluation – according to table "Principles of evaluation of offers"

TOTAL = sum of all evaluation criteria
